

## At Australian air Express

we know that your time is valuable, so the less time you spend booking freight pick-ups, the more time you have to focus on what's important to you.

So to save you time, we are introducing a new voice and key pad automated freight booking system which allows you to book your consignments quickly and easily by phone.

No time spent waiting to speak to an AaE consultant, you can now book your pick-up at the touch of a button. If you have previously booked a pick up with AaE, your details will be immediately activated in our system.

Importantly, our new technology is fast, efficient and accurate so you can rest assured that your transaction will begin the moment you pick up the phone.

This change is just part of our commitment to continuous service improvement – putting the needs of our customers at the forefront of everything we do.

To ensure our highly trained customer service consultants always be on hand to deal with your express freight requirements and provide tailored solutions for those urgent pick-ups.

**Call us on 13 12 13** to book your next express freight pick-up with Australian air Express or to speak to one of our customer service consultants.
